

Microservice Architecture

Document ID: ARCH-0014

Version: 2.0

Author: Sophia Anderson

Role: Engineering Manager

Project: Project Nova

Status: Draft

Created Date: 2025-08-27

This document defines enterprise standards and implementation guidance.

System Components

- API Gateway
- User Service
- Order Service
- Notification Service

Technologies

- Python
- PostgreSQL
- Docker

Recommendations

- Enable centralized logging
- Use API versioning
- Use circuit breakers
- Implement service isolation
