

Event Driven Architecture

Document ID: ARCH-0016

Version: 2.0

Author: Grace King

Role: Security Analyst

Project: Project Nova

Status: Archived

Created Date: 2025-11-02

The following information reflects current architectural and operational practices.

System Components

- Event Bus
- Producers
- Consumers
- Schema Registry

Technologies

- Kafka
- Avro

Recommendations

- Ensure idempotency
- Monitor event flow
- Implement retries
- Use event versioning
