

Cloud Infrastructure Design

Document ID: ARCH-0018

Version: 3.0

Author: Rohan Deshmukh

Role: Platform Engineer

Project: Project Atlas

Status: Under Review

Created Date: 2025-02-10

This document defines enterprise standards and implementation guidance.

System Components

- Load Balancer
- Kubernetes Cluster
- Monitoring Stack

Technologies

- Kubernetes
- Docker
- Prometheus

Recommendations

- Implement disaster recovery
- Monitor resource utilization
- Enable autoscaling
- Use rolling deployments
